MURDER OF INNOCENTS -Mrs. GAGE, in the last number of Field Notes, says : "The first thing I notice in a school is the physical condition of the pupils. If they look languid, if they open their eyes as if they would like to go to sleep, moving wearily upon their seats in the meantime, then I know that the 'Murder of In-

meantime, then I know that the 'Murder of Innocenta' is going on."

We fear there is much murder of this kind perpetrated, of which parents, school officers, and sometimes even teachers, the immediate agents in the work, are as unconscious as the innocent victims themselves. POST OFFICE ROBBERIES .- On Monday night March 10th, the Post Office at Gallion was entered by burglars, and all the letters, several dollars worth of stamps, and about two dollars in money taken. The burglars entered by a back window, which was forced open with an axe .-The letters were put in a mail bag, which was found in the office, and taken to a stable, and there stripped of the valuables enclosed.

On Thursday night, March 13th, a front window of the Post Office at Bucyrus was entered, and some money and nearly all the letters taken out. Most of the letters were found the n'ext day, scattered in different parts of the town, rifled of whatever valuable contents they

On Wednesday night, March 19, the Post Office at Upper Sandusky was broken open and robbed. It was completely stripped of its contents. The letters were taken into an engine house and opened. It is said that quite a large amount of money was obtained by the robbers.

These rebberies of post offices are becoming alarmingly frequent. Is there no way of guarding against, or putting as stop to these depredations on public and private property?

MR. COX AT WOOSTER -Hen S S. Cox, o this city, delivered his lecture on "Irish Humor" at Wooster, on the 17th inst. Speaking of the lecture, the Democrat of that place

The reputation of Mr. Cox was sufficient to ensure a select and intelligent andience at the Arcadome last Monday evening, the occasion of his lecture before the Library Association. As an intellectual treat, it is impossible to speak of the lecture in terms sufficiently commendatory. The lecturer is a fluent speaker, of graceful gesture, and presented the various characteristics of Irish Humor with a most pleasing and instructive effect, creating of the subject many a new and lasting impression in the mind of the hearer. It was replete with illustrations, recited true to the rich brogue, of the irrepressible temperament of the universally happy, rollicking som of Erin, whose humor and wit have become proverbial. Throughout Mr. Cox was listened to with close attention, and all unite in pronouncing his lecture the attention, and all unite in pronouncing his lecture the best delivered this season in Whonter.

REMARKABLE CASE OF A MAN TWICE KILLED .-The Journal of this morning has the following

"A deaf man named Taft was run down by a passenger train and killed, on Wednesday morning, half a mile north of Greenwich station, near Cleveland. He was injured in a similar way about a year ago."

That must have been a vicious railroad train that would twice run a man down, and kill him eich time!

COURT OF COMMON PLEAS .- Judge BATES, this forenoon, sentenced Thomas Davis, WESLEY DAVIS, and JOHN McFARLAND, convicted of assault with intent to murder, ot hard labor in the Penitentiary for four years each; and Owen GLENNON, convicted of grand largeny, to hard labor in the same institution for two years. Coughs.—The sudden changes of our climat are sources of Polmonary, Bronehial and Asthmatic Affections. Experience having proved that simple remedies often act speedily and certainly, whon taken in the early stages of the disease, recourse should at once be had to "Brown's Bronchial Trockes," or Lozonges, let the Cold, Cough, or Irritation of the Throat be ever so slight, as by this precaution a more serious attack may be effectually warded off.—Public Speakers and Singers will find them effectual for clearing and strengthening the voice. Good -We met one of our friends yesterday on Broadway, and were astonished at the change in his appearance. A few weeks ago we saw him, he was pale, lean and dejected; complaining of weakness and debility, having been so afflicted all summer. Now he appears to be fat, healthy and strong. We learn he owed his restoration entirely to McLean's Strengthening CORDIAL.

We advise all who are complaining of General Debility to try it; it is certainly a very pleasant remedy. We learn that there are large quantities of it selling daily .- Morning Herald

Mr. Seward has written a letter to the Southern Commissioners, reviewing the entire grounds of misunderstanding, with a view of restoring harmony, and closing with the recommendation of a National Convention.

The Government has received information of a plot to revolutionize California and Oregon, implicating General Johnson and other officers. The President submitted to the Senate the position of the British Government to refer he San Juan question to the arbitration of some foreign Government. The committee on Foreign Relations recommended Switzerland.

Rumors of the non-evacuation of Fort Sumter are supposed to have been put forward for political effect. It is positively certain that the fort will be abandoned speedily, and that Fort Pickens will not be reinforced. All signs are favorable to a peaceful solution.

Chartered vessels which recently sailed took No determination yet for an extra session of

Congress. The proposition of the British Government of refer the San Juan question to some foreign 9,911 32 Government was submitted by the President to the Senate. The matter was understood to have been debated in executive session without conosion. Senator Nesmith opposes the proposition, being unwilling to agree to any plan involving the possibility of giving up the island. Republican Senators in caucus to-day resolved to supersede the present Sergeant-at-Arms and Assistant Door Keeper by a new election. They will determine on the candidates to-morrow

There is no determination in Administration circles relative to an extra session of Congress. According to present indications, the nomina-tion of Holloway as Commissioner of Patents cannot be confirmed. The committee on Patents not having reported on the subject, his name will, therefore, probably be withdrawn.

Col. Barbour, Superintendent of Harper's Ferry Armory, tendered his resignation to-day.

WASHINGTON, March 23 .- The Charleston Courier of the 21st inst., received here, says the assertion that the term of service of 26 of Ma-jor Anderson's men had nearly expired is a mistake. Major Anderson was in daily expectation of receiving orders to evacuate Fort Sumter. The supply of provisions and fuel was nearly exhausted. If he is not speedily relieved, he will be compelled to burn some gun carriages. He stated that the Fort would be given up to the South Carolina authorities, after examination of authorized officers and the receipt for the property. Col. Lay has had a long in-erview with Gen. Pickens and Gen. Beaure-

Missouri Convention:

ST. Louis, March 22 .- In the Convention this morning, a committee of one from each Congressional district was elected to call the Convention together previous to the third Monday aid to the enemy. His (Howe's) party had rention together previous to the third Monday in December, if the public exigencies require it.

The following gentlemen were elected delegates to the Border State Convention: Hamilton R. Gamble, John B. Henderson, Wm. A. Hall, James H. Moss, Wm. Douglas, Littlebury Hendricks, and William G. Pomercy.

Scrofula, or King's Evil

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous tent is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, fifth and fifthy habits, the depressing vices, and, above all, by the venereal infection. Whatever he its origin, it is hereditary in the constitution, descending "from parents to children stitution, descending "from parents to childre unto the third and fourth generation;" indeed it seems to be the rod of Him who says, " will visit the iniquities of the fathers upo

will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, cruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to with plaints, but they have far less power to stand the attacks of other diseases; quently vast numbers perish by discr which, although not scrofulous in their nat are still rendered fatal by this taint in system. Most of the consumption which de-cimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

are aggravated by the same cause.

One quarter of all our people are ecrolulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in The

AYER'S

Compound Extract of Sarsaparilla, the most effectual remedy which the medical the most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only Scrofula, but also those other affections which arise from its cuch as Francisco. tions which arise from it, such as ERUPTIVE and SEIN DISEASES, St. ANTHONY'S FIRE, ROSE, OF ERTSIPELAS, PIMPLES, PURTUES, BLOTCHES, BLAINS and Beils, TUMORS, TETTER and Salt Rheum, Scald Head, Riveworm, Rheumatism, Syphilitic and Mencurial Distases, Dropsy, Dyspersia, Desility, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

AYER'S Ague Cure,

FOR THE SPEEDY CURE OF Intermittent Fever, or Fever and Ague, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache, or Bilious Headache, and Bilious Fevers, indeed for the whole class of diseases originat-ing in biliary derangement, caused by the Malaria of Midsmatic Countries.

We are enabled here to offer the community a McLean's Volcanic Oil Liniment.

The best Liniment in the World. The only safe and certain cure for Cancers. Piles, Swellings and Bronchitis, or Goitre, Paralysis, Neuralgia, Weakness of the Muscles, Caronic or Inflammatory Rheumatism, Signess of the joints, contracted Muscles or Ligamente Earache or Toothache, Bruikes, Sprains, Wounds, Fresh Guts, Ulcers, Fever Sores, Caked Brearia Bore Nippics, Bartis, Scalda, Sore Thoat, or any Inflammation or Pain, no difference how severe, or hos long the disease may have existed. McLean's Colebrated Liniment is a certain remedy.

Thousands of human beings have been saved a life of decrepitude and saisery by the use of this invaluable median.

Mol EAN'S VOI CANICO OII have it and use it freely both for cure and pro tion. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of Intermittents is that it contains no Quinine. or mineral, consequently it produces no quinism or other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the disease.

For and Ague is not alone the consequence of

the miasmatic poison. A great variety of disor-ders arise from its irritation, among which are Neuralpin, Rheumatism, Gout, Headache, Blind-mers, Toothache, Earache, Catarrh, Asthma, Pal-pitation, Painful Affection of the Spleen, Hyster-ics, Pain in the Bowels, Colic, Paralysis and Deits, Fain in the Bouces, Couc, Paralysis and De-rangement of the Stomach, all of which, when a originating in this cause, put on the intermittent type, or become periodical. This "Criat" expen-tive poison from the blood, and consequently cares them all alike. It is an invaluable protection to mmigrants and persons travelling or temporarily esiding in the malarious districts. If taken occusonally or daily while exposed to the infection, that will be exercted from the system, and cannot accumulate in sufficient quantity to ripen into discase. Hence it is even more valuable for protection than cure, and fow will ever suffer from Intermittents if they avail themselves of the pracection this remedy affords.
